## *Memorandum:*

TO: Mayor Krachmer and Council Members

FROM: Ken LaCasse, Public Service Superintendent

DATE: April 4, 2023

SUBJECT: John Deere 325G Compact Track Loader

### **Requested Council Action**

Approve purchase of a John Deere 325G Compact Track Loader from Midwest Machinery for the sum of \$67,904.45.

### **Background**

Skid Steer loaders are used for a variety of maintenance tasks. These include but are not limited to street maintenance, snow removal, grading of material, and powering hydraulic attachments. The public works department currently operates one skid steer for these purposes. It is often needed for several projects at the same time. There is also an immediate need have a second skid steer for use on street repair. To make corrective bituminous patches requires a milling attachment, a pickup sweeper, and a blacktop/material leveler. This process is a very effective way to create longer lasting repairs. Two machines will allow crews to perform repairs effectively and quickly. The new skid steer will also come with tracks for work off of hard surfaces. With council approval, delivery of the new machine would be in September 2023.

After initial purchase this machine like our other skid steer, would become part of a municipal lease program in which they are replaced yearly for a small replacement fee out of operational funds. The machines will always be under warranty and never need tires.
